

The Zero Case

Ten zero mysteries — the tens is ZERO and the hundreds is hiding!

Name: _____

Date: _____

Zero trick: the ones can't take, and the 0 next door has **NOTHING to lend** — **knock one more door!**
Cross out the mystery box (whatever hides inside is 1 smaller now), the 0 gets its ten and becomes 10, then 9. At the end, unmask the box: **add the 1 it lent back on!**
